SATURDAY APRIL 6, 1878

Editors Disputch: Is there any authority squal, Ask your physician about it. For sale by for the use of the word therelofore? It frequently appears in print, but is not found A. B. in Webster. [Certainly. It is in Worcester.]

We never published more than one recipe for diseases; and the use of that one by a negro caused, we have sometimes thought, the death of one person. Nevertheless, as the following was handed in by a physician, we violate our rule and give it to the public. We had seen it before several times, but would not publish it without a doctor's endorsement:

Diphtheria. [From the Belfast (Ireland) Witness.] Should you or any of your family be attacked with diphtheria do not be alarmed, as it is easily and speedily cured. When it was raging in England a few years ago I accompanied Dr. Field on his rounds to witness the so-called "wonderful cures" he performed, while the patients of others were dropping on both sides. The remedy is so rapid it must be simple. All he took with him was powdered sulphur and a quill, and with these he cured every patient with-

out exception. He put a teaspoonful of flour of brimstone in a wine-glass of water, and stirred with his finger instead of a spoon, as the sulphur does not readily amalgamate with water. When the sulphur was well mixed he gave it as a gargle, and in ten minutes the patient was out of danger. Brimstone kills every species of fungus in man, beast, and plant, in a few minutes. Instead of spitting out the gargle he recommended the swallowing of it.

In extreme cases, in which he had been called just in the nick of time, when the fungus was too nearly closed to allow the gargling, he blew the sulphur through a quill into the throat, and after the fungus had shrunk to allow of it, then the gargling. He never lost a patient from diphtheria. If a patient cannot gargle take a live coal, put it on a shovel, and sprinkle a spoonful or two of flour of brimstone upon it: let the sufferer inhale by holding his head over it.

POSTAGE STAMPS FOR CHINESE BABIES .-The Boston Journal of Saturday prints this queer story: " A current note in Tuesday's Journal contained a query concerning the use made of the millions of old postage stamps which are collected. A correspondent is prompted by the question to inform \$3.75. have just received a fresh supply of ENGINE, NUT, HAIL, and LUMP COAL. Delivered promptly, and free of slate.

Office: Corner of Seventh and Byrd streets.

E. B. THAW, the public of a practice which prevails in convents and other Catholic institutions in this country, and is almost unknown to those outside their walls. All cancelled stamps are saved and sent to missionaries of the faith in China, who buy with those worthless scraps of paper infants who would otherwise be destroyed, in accordance with the custom of the more degraded Chinese. The many-colored stamps are used the lowest prices.

The Chinese of Coal, in the Chinese of the more degraded and LeHigh Coal, for foundrics. The best coals at the lowest prices. for the decoration of walls, &c., by the ingenious Orientals, and are valued so highly that one hundred of them will buy a baby whose parents have doomed it to death. The little ones thus purchased are gathered into asylums and reared in accordance with the laws and customs of Christian civilization."

INCURRING A TREMENDOUS RISK.—
They incur a tremendous risk who sojourn or emigrate to reside in districts where malarial disease is prevalent without medicinal means of fortifying their systems against the periodic scourge. The danger to bilious subjects, and to those who lack builty stamina, is particularly serious. A preventive and curative agent of known anti-majorial efficacy should be frequently used and constantly kept at hand by such perserious. A preventive and curative agent of used and constantly kept at hand by such persons; and on none can they rely with such certainty of protection and aid as Hostetter's Stomach Hitters. This grand specific roots out every vestige of the malarial poison from the system, and endows it with an amount of vital activity and repelling power that nullifies the influence of miasma. It also prevents and remedies disorders of the stomach, howels, and liver, which are particularly prevalent in malarions regions, and is an incomparable general invitory.
